
BLEND
FOLD
MAKE

Hello!

Welcome to our exhibition **'Blend Fold Move,'** showing a range of artworks by **P5, P6 and P7** pupils at **St Fergus and Glencoats Primary Schools.**

This year, the two schools have taken part in fourteen creative sessions with Sculpture House. In these workshops we have explored different art processes inspired by themes of storytelling, the body and spaces; making a manifesto and moving between **real and imaginary worlds.**

A clay workshop with P5/6 pupils from Glencoats.

Building the programme

Back in March (2024), the children were asked to share their own workshop ideas to help shape the programme.

Blend - Fold - Move was an idea shared for a collaborative, shapeshifting making game. We used this to inform the playful approach to workshops, making art together, *sharing skills and ideas!*

Artist Inspiration

Throughout the project, we have looked at **different artists** to inspire our activities.

Viewfinder Idea

Corita Kent was an artist and educator who inspired us to make our **manifesto** and other activities e.g. using viewfinders.

Re-fold this booklet to make a window to look through (a viewfinder.) **Explore** the exhibition looking through your viewfinder. **Make** a drawing/ sculpture in response to what you see!

How does it change how you look at things?

SCULPTURE

Sculpture House is run by a group of artists with a passion for sculpture and social inclusion.

We aim to bring together professional artists and members of the community, widening access to the visual arts. This programme was coordinated and delivered by **Coral Brookes** and **Eo Stearn** in collaboration with Sculpture House collective.

We would like to thank the staff and pupils of St Fergus and Glencoats Primary Schools, as well as Tannahill Centre for hosting and supporting us with the exhibition.
This project was generously funded by Renfrewshire Council 'Culture, Heritage and Events Fund'
